

BIO SCULPTURE

HEALTHY | ETHICAL | PROFESSIONAL

PROFESSIONAL TRAINING PROSPECTUS

BIO SCULPTURE produces premium nail gel systems, used by distinguished nail technicians for 35 years! With an eco-friendly manufacturing facility based in South Africa, BIO SCULPTURE's ethical business approach provides quality products and professional training, ensuring that brand trained nail technicians can offer healthy and fashionable nail care to clients.

Professional

BIO SCULPTURE's professional products are available to nail technicians through brand training. As a training-based system, BIO SCULPTURE endorses the highest standard globally and produces award winning nail technicians worldwide. BIO SCULPTURE certified training courses are internationally recognised within our brand systems.

HEALTHY | ETHICAL | PROFESSIONAL

Our purpose is to provide quality products and professional training, empowering nail technicians to offer healthy and fashionable nail care systems, guided by an ethical business approach.

BIOGEL evō BI-OLYGEL ETHOS GEMINI SPA

Career Training

Through our comprehensive training programs, nail technicians are equipped with the knowledge to analyse each client's unique nail type and condition, delivering prescriptive treatments that promote optimal nail health. We go beyond traditional overlays by offering techniques that create long-lasting results, customised to suit the client's lifestyle.

CONSIDER IT STANDARD, NOT A SELLING POINT

- We have 400+ non-chip colours
- Colours to suit all skin tones
- We are Vegan-friendly and cruelty-free
- Long-Lasting
- Easy soak-off
- Free from any banned ingredients
- Excellent colour consistency and coverage
- Excellent nail health track record
- We offer HEMA-free alternatives and use high-quality ingredients
- Our products provide value for money and we prioritise sustainability

TRAINING COURSES

Professional Career Training

- BIOGEL and EVO applications – Clear, colour and french gel overlays
- BIOGEL and EVO lengthening techniques including basic sculpture repairs and Full Cover Tip application
- Gel removal

BIOGEL

- BIOGEL applications – Clear, colour and french gel overlays
- BIOGEL lengthening techniques including basic Silk Sculptures and Full Cover Tip application
- Gel removal

EVO

- EVO applications – Clear, colour and french gel overlays
- EVO lengthening techniques including Silk Sculptures and Full Cover Tip application
- Gel removal

- Nail plate preparation
- Dry gel shaping

Please note that certain training programs may require completion of the Professional Career, BIOGEL or EVO Training as a prerequisite. These programs build upon the foundation established in the core curriculum.

On completion of the training, the newly trained technician will be able to attend as many refresher workshops as needed throughout their career to maintain and enhance application skill and technique. T's & C's apply.

Once you have successfully completed the training program and passed a practical exam, you will be awarded the respective BIO SCULPTURE certificates.

Professional Career Training

A 5-day course structured for both experienced and new nail technicians, who desire becoming a BIO SCULPTURE nail technician. Training modules offer each nail technician comprehensive training in natural nail care treatments as well as SPA product knowledge, BIOGEL and EVO product application, basic nail extensions, full cover tips and product removal.

What you will learn

- Nail anatomy and terminology
- Nail diseases and disorders
- Nail plate preparation
- Introduction to Spa manicures
- BIOGEL and EVO applications – Clear, colour and french gel overlays
- Basic sculpture repairs
- Full Cover Tip application
- Fills
