PROFESSIONAL TRAINING PROSPECTUS

Bio Sculpture produces premium nail gel systems, trusted by distinguished nail technicians for decades. With an eco-friendly manufacturing facility based in South Africa, Bio Sculpture’s ethical business approach provides quality products and professional training, ensuring that brand-trained nail technicians offer healthy and fashionable nail care to clients.

Professional

Bio Sculpture’s professional products are available to nail technicians through brand training. As a training based system, Bio Sculpture endorses the highest standards globally and produces award-winning nail technicians worldwide. Bio Sculpture certified training courses are internationally recognised within the brand.

Bio Sculpture Gel

Natural Nail Treatments, Nail Polish & Spa

Salon & Home Care

Bio Sculpture’s home care range is pledged to skin and nail health. Indulge yourself in healthy and hydrating product options, tailored to suit your individual needs.

Why should you choose Bio Sculpture?

- Access to professional products
- New skill development
- Career preparation
- Work your own hours
- Earn a potential extra income
- Pursue your passion
- Training centres across Southern Africa
- Ongoing training and support
- Our products provide value for money and we prioritise sustainability

Professional Career Training

Embark on your journey with our Bio Sculpture professional training program, presented by experienced educators. Whether you're a seasoned nail technician or a passionate newcomer, our 5 day structured course equips you with the skills and knowledge to excel.

Training modules offer comprehensive training in tailoring treatment routines to address every client's individual needs. These include Natural Nail Treatments as well as Spa product knowledge, Bio Sculpture Gel product application, basic nail extensions, Full Cover Tips and product removal.

The Complete Career Training Kit includes all the products, tools and utensils required to start up your business. Our skilled educators will also equip you with the basic information you need to start up your own salon.

Professional Career
Training & Complete Kit

R12 900

What you will learn

- Nail anatomy and terminology
- Nail diseases and disorders
- Nail plate preparation and detailed nail analysis - Prescriptive approach
- Introduction to Spa manicures
- Bio Sculpture Gel applications – Clear, colour and French gel overlays
- Basic silk sculpture
- Full Cover Tip application
- Fill and rebalance
- Gel removal
- Introduction to Summer Heel Callus Removal Treatment
- Hygiene and maintenance
- Salon ethics

On completion of the training, the newly trained technician will be able to attend as many refresher workshops as needed throughout their career to maintain and enhance application skill and technique. T&Cs apply.

Once you have successfully completed the training program and passed a practical exam, you will be awarded the respective Bio Sculpture certificates.

Please note that certain training programs may require completion of the Professional Career Training as a prerequisite. These programs build upon the foundation established in the core curriculum.
